**Brief Description of Program:**

These funds are utilized for the expansion of the existing Childhood Lead Poisoning Prevention Program as well as to provide grants to local governments for innovative childhood lead poisoning prevention initiatives. A portion of these funds are contracted out to Duke University, Nicholas School of the Environment in the amount of **\$50,000** for GIS-based lead risk prioritization computer mapping. The disbursements are made in the form of reimbursements to the approved applicant based on the submittal of the required supporting documentation.

**Organizations Funded:**       Private       Local Government       Both

**Source of Funds:**      State \_\_\_\_\_      Federal   x
