**Brief Description of Program:**

The Reentry Initiative encourages the development of model reentry programs that begin in correctional institutions and continue through an offender’s transition (release) to and stabilization in the community. These programs provide for individual reentry plans that address issues confronting offenders as they return to their communities. The initiative encompasses three phases and is implemented through appropriate programs. Phase 1-Protect and Prepare: Institution-Based Programs, Phase 2-Control and Restore: Community-Based Transition Programs, Phase 3-Sustain and Support: Community-Based Long-Term Support Programs.

**Organizations Funded:**             Private     Local Government             Both

**Source of Funds:**                    State 25%                    Federal 75%
