**The auditor should not consider the Supplement to be “safe harbor” for identifying audit procedures to apply in a particular engagement, but the auditor should be prepared to justify departures from the suggested procedures. The auditor can consider the Supplement a “safe harbor” for identification of compliance requirements to be tested if the auditor performs reasonable procedures to ensure that the requirements in the Supplement are current. The grantor agency may elect to review audit working papers to determine that audit tests are adequate.**

The Single Audit Compliance Unit of the External Audit Branch reviews all single audits, financial audits, and management letters of all “grantees”. We are looking at both the presentation (information as to program, pass-through and state funding, NCDOT identification numbers) and the dollar amounts presented versus our records. Any reports not received will be requested.

Grants must be properly identified by program name, CFDA number (20.319) and WBS number on the Schedule of Expenditures of Federal and State Awards. This information is available from the agreement with NCDOT; program name is in the second/third paragraph while the

## HIGH SPEED RAIL

---

WBS number is on the upper right hand corner of the first page. Grantor and/or pass-through grantor and program title should also be included. Please do not combine like projects into one dollar amount since we would need to call you for the breakdown; please report award amounts, Federal Pass-through, State share and local share. On NCDOT's confirmation from the Grant Master List (GML), these moneys are shown by CFDA number 20.319.

### I. PROGRAM OBJECTIVES

The High-Speed Intercity Passenger Rail (HSIPR) Program is intended to develop and expand high-speed and intercity passenger rail service in the United States. The objectives of this program are twofold. In the long-term, the program aims to build an efficient, high-speed passenger rail network connecting major population centers that are 100 to 600 miles apart. In the near-term, the program will begin to lay the foundation for this high-speed passenger rail network by investing in intercity passenger rail infrastructure, equipment, and intermodal connections.

### II. PROGRAM PROCEDURES

The HSIPR Program is funded both through annual appropriations **and the American Recovery and Reinvestment Act of 2009 (ARRA) (Pub. L. No. 111-5, 123 Stat. 208), under the title "Capital Assistance for High Speed Rail Corridors and Intercity Passenger Rail Service."**

### III. COMPLIANCE REQUIREMENT

**The federal granting agency has issued a compliance supplement that should be used in conjunction to this compliance supplement issued by the State Agency. Please refer to [2 CFR Part 200](#) Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards: Final Rule.**

In developing the audit procedures to test compliance with the requirements for a Federal program, the auditor should first look to [Subpart F](#) of the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards

#### A. ACTIVITIES ALLOWED OR UNALLOWED

Activities are defined in the agreement between NCDOT and the grantee.

#### B. ALLOWABLE COSTS/COST PRINCIPLES

1. **Compliance Requirement** – In-house equipment used by grantees can be billed at rates only on documented historical cost records. If the grantee does not have historical cost records to support rates, rates must be approved by the Department of Transportation. (NCDOT approves rates using General Managers' Association of Chicago, U.S. Corps of Engineers, or Blue Book rental rates.)

**Audit Objective** – Determine if grantee used the appropriate equipment rates.

**Suggested Audit Procedure** – Ascertain that municipality used the equipment rental rate (for in-house equipment) based upon historical cost records or state-approved rates.

2. **Compliance Requirement** – State governments regional and local governments, for-profit organizations such as railroads are eligible for grants. These local units of government should be eligible for sales tax refunds under N.C.G.S. 105-164.14 (b) or (c). If they are not qualified, then these local units of government should take the steps necessary to become eligible. Sales tax paid which may be requested from the NC Department of Revenue as a refund is an ineligible charge.

**Audit Objective** – Determine that the authority is eligible for the refund and that NCDOT did not reimburse any sales taxes eligible for refund.

**Suggested Audit Procedure** - Review financial records including contractors' sales tax affidavits and ascertain that no sales taxes were billed to the project.

C. CASH MANAGEMENT

The Department of Transportation pays on a reimbursement basis. No testing is required.

D. RESERVED

F. EQUIPMENT AND REAL PROPERTY MANAGEMENT

**Compliance Requirement** – NCDOT has adopted the policies and procedures for equipment and real property contained in the OMB Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR Part 200.310-316). Refer to Part 3 of the Uniform Guidance Compliance Supplement (2 CFR Part 200, Appendix XI) for Suggested Audit Procedures.

G. MATCHING, LEVEL OF EFFORT, EARMARKING

1. **Matching** – The State (including federal and state funds) reimbursement cannot exceed the amount stated in the program agreement, program award letter and approved project budget. The remaining share must come from other public sources.
2. **Level of Effort** – No testing is required at the local level.
3. **Earmarking** – No testing is required at the local level.

H. PERIOD OF PERFORMANCE

**Compliance Requirement – Funding for grants under ARRA must be expended by September 30, 2017 (ARRA, 123 Stat. 208; June 23, 2009, *Federal Register* (74 FR 29916)).** Refer to Par 3 of the Uniform Guidance Compliance Supplement (2 CFR Part 200, Appendix XI) for Suggested Audit Procedures.

I. PROCUREMENT AND SUSPENSION AND DEBARMENT

1. Procurement

Project is subject to Fiscal Year 2008 Appropriations Act Buy American Procurement requirements.

Buy American domestic source requirements require that all steel or iron permanently incorporated in a project be produced in the United States. References are listed below:

- a. The project should include documentation from procurement records as to the domestic content of steel or iron purchased for the project.
- b. Any Buy American waivers should be provided in guidance from NCDOT.
- c. Buy American compliance should also be tested for previous violations of the Buy American Act.

Project is subject to Disadvantaged Business Enterprise participation goals from NCDOT. The project received a zero percent goal, so no testing is required.

2. Solicitation of Bids

**Compliance Requirement** - N.C.G.S. 143-129 requires the solicitation of bids on construction or repair work requiring expenditure of public money in an amount equal to or more than five hundred thousand dollars (\$500,000) or purchases in an amount equal to or more than ninety thousand dollars (\$90,000). N.C.G.S. 143-131 states that all contracts for construction or repair work or for the purchase of apparatus, supplies, materials, or equipment, involving the expenditure of public money in the amount of thirty thousand dollars (\$30,000) or more, but less than the limits prescribed in G.S. 143-129, shall be made after informal bids have been secured. Bid tabulation and governing agency resolution recommending award is required for contract award to the lowest responsible bidder.

**Audit Objective** – Determine if bids, formal or informal, were required and if required were received.

**Suggested Audit Procedure** - Verify that grantee has properly solicited bids and that the contract was awarded to the lowest qualified.

3. Debarment

**Compliance Requirement** – It is the policy of NCDOT not to enter into any agreements with parties that have been debarred by any government agency. The entity’s agents or contractors shall not be presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation in transactions by any Federal or State Department or Agency.

**Audit Objective** – Determine that the entity has not entered into any agreements with parties that have been debarred by any government agency.

**Suggested Audit Procedure** - Ascertain whether or not the entity has not entered into any agreements with parties that have been debarred by any government agency.

J. PROGRAM INCOME

Program Income testing should include verification of disposition of material netted from project replacement of current infrastructure. Income gain should be based on fair market value of the property derived as a new asset for the grantee from the grant activities.

K. RESERVED

L. REPORTING

Reporting to NCDOT is required:

1. **ARRA Monthly Employment Report Form FHWA-1589** – verify form was filed by the seventh (7<sup>th</sup>) of the month for the preceding reporting period.
2. **ARRA Monthly Employment Report Form FHWA-1587-** Report that is completed by participating contractors. Verify form was filed by the seventh (7<sup>th</sup>) of the month for the preceding reporting period.
3. FRA Progress Reports – Standard Quarterly FRA report required for each grant. Verify report was filed thirty days after the quarter end.
4. SF-425 Form – Standard Financial Reporting form. Verify report was filed thirty days after the quarter end.
5. 1511 Certification – verify form was filed after any changes were made in the vetting, or project scope.
6. 1201 Certification – verify form was filed after any change in the maintenance of effort.
