The auditor should not consider the Supplement to be “safe harbor” for identifying audit procedures to apply in a particular engagement, but the auditor should be prepared to justify departures from the suggested procedures. The auditor can consider the supplement a “safe harbor” for identification of compliance requirements to be tested if the auditor performs reasonable procedures to ensure that the requirements in the Supplement are current. The grantor agency may elect to review audit working papers to determine that audit tests are adequate.

I. PROGRAM OBJECTIVES

The purpose of this subpart is to improve students’ academic achievement by increasing the capacity of States, local educational agencies, schools, and local communities to— (1) provide all students with access to a well-rounded education; (2) improve school conditions for student learning; and (3) improve the use of technology in order to improve the academic achievement and digital literacy of all students.

Each State educational agency must submit an application to the Secretary of the U.S. Department of Education. A state may choose to submit their applications as part of the Consolidated Plan. Applications are approved by the Secretary of the US Department of Education. Funds are provided to each state educational agency (SEA), NC Department of Public Instruction (DPI), for allocation to local education agencies (LEAs) and Charter Schools that have current approved project applications on file with the SEA describing the project to be implemented using these funds.

Allotment reports are sent from the School Allotment Section of the Division of School Business notifying the LEAs of the amount of funds that they have available.

Funds are distributed according to the cash request procedures discussed in the NC Department of Public Instruction Cross-cutting Requirements, DPI-0.

III. COMPLIANCE REQUIREMENTS

The NC Department of Public Instruction (DPI) mandates that all testing in the NC Department of Public Instruction Cross-cutting Requirements be performed by the local auditor. Please refer to Cross-cutting Requirements DPI-0.

Other procedures that pertain to this program can be found in the US Department of Education Cross-cutting Section and the Federal Compliance Supplement.

A. Activities Allowed or Unallowed

Compliance Requirements:

Funds may be used by a LEA or other operating agency only in accordance with the approved State plan and only for those services or activities in its approved project application.

An LEA that receives at least \$30,000 in SSAE program funds must conduct a comprehensive needs assessment that includes, at a minimum, a focus on the three content areas identified above under program objectives (ESEA section 4106(d)). Based on the results of that assessment, the LEA must use:

- Not less than 20 percent of funds to support one or more of the activities authorized under section 4107 pertaining to well-rounded educational opportunities;
- Not less than 20 percent of funds to support one or more activities authorized under section 4108 pertaining to safe and healthy students; and
- A portion of funds to support one or more activities authorized under section 4109(a) pertaining to the effective use of technology, including an assurance that it will not use more than 15 percent of the remaining portion for purchasing technology infrastructure as described in section 4109(b).¹²

Of the amount received under Section 4105(a)(2), a local educational agency may reserve not more than 2 percent for the direct administrative costs of carrying out the local educational agency's responsibilities under this subpart.

Within each of these areas, LEAs have broad flexibility to use the SSAE program funds for a variety of activities to improve student outcomes and address the opportunity gaps identified through the needs assessment.
