**Brief Description of Program:**

The NC Moving Ahead is intended to advance transportation projects across the state. The program provides for improvements to highways, public transportation, rail, bicycle and pedestrian and ferry facilities.

Local recipients for NC Moving Ahead funds for the Public Transportation Division were identified from several sources, including the State Transportation Improvement Program (STIP) list of unfunded transit projects. The recommended project list was approved by the NC Board of Transportation and reviewed by Joint Transportation Oversight Committee of the General Assembly. Following review, selected projects were notified. A grant agreement between the department and the recipient is prepared and executed. The recipient can request advance payment for major construction costs; however, the grantees are typically reimbursed to the recipient once they have issued payment.

No new grants have been awarded under the Public Transportation Division's NC Moving Ahead Program, Short-Form-32'9. However, program funds are currently being disbursed for grants awarded in prior years. If the program is selected for audit, please use the supplement that corresponds to the fiscal year in which the grant was initially awarded to the entity
