Brief Description of Program: The purpose of this program is to provide funds to Psychiatric Residential Treatment Facilities (PRTF) for the provision of educational services as required by S.L. 2014-100 (S744). There are currently 14 parent PRTF agencies that are eligible to receive funding per this legislation. They serve approximately 1,000 children a year in 27 different sites.

There is much variability in the quality and quantity of educational services provided to children in PRTFs. Standardization of and adherence to the minimal instructional requirements within PRTFs is needed to ensure that the educational needs of these children are met. These students are often at increased risk for poor academic, occupational and social outcomes. With improved educational instruction while in the PRTF, these students have increased chances to successfully transition back to their home school districts and have academic and occupational success.
