SFY 2022 audit confirmation reports for payments made to Counties, Local Management Entities (LMEs), Managed Care Organizations (MCOs), Boards of Education, Councils of Government, District Health Departments and DHHS Grant Subrecipients will be available by mid-October at the following web address: <https://www.ncdhhs.gov/about/administrative-offices/office-controller/audit-confirmation-reports>. At this site, click on the link entitled “Audit Confirmation Reports (State Fiscal Year 2021-2022)”. Additionally, audit confirmation reports for Nongovernmental entities receiving financial assistance from DHHS are found at the same website except “[Non-Governmental Audit Confirmation Reports \(State Fiscal Years 2020-2022\)](#)”.

The auditor should not consider the Supplement to be “safe harbor” for identifying audit procedures to apply in a particular engagement, but the auditor should be prepared to justify departures from the suggested procedures. The auditor can consider the supplement a “safe harbor” for identification of compliance requirements to be tested if the auditor performs reasonable procedures to ensure that the requirements in the Supplement are current.

**The grantor agency may elect to review audit working papers to determine that audit tests are adequate.**

**Auditors may request documentation of monitoring visits by the State Agencies.**

This compliance supplement must be used in conjunction with the OMB 2022 Compliance Supplement which will be issued in the summer. This includes "Part 3 - Compliance Requirements," for the types that apply, "Part 6 - Internal Control," and "Part 4 - Agency Program" requirements if the Agency issued guidance for a specific program. The OMB Compliance Supplement is Section A of the State Compliance Supplement.

## **I. PROGRAM OBJECTIVES**

The objectives of grants for family planning services are to assist in the establishment and operation of voluntary family planning projects that provide the educational, comprehensive medical and social services necessary to aid individuals in freely determining the number and spacing of their children.

## **II. PROGRAM PROCEDURES**

Public Health Service officials in Region IV of the U. S. Department of Health and Human Services annually award the State of North Carolina, Department of Health and Human Services, a Title X grant to support the provision of subsidized contraceptive services. Local health providers, primarily county health departments, receive allocations of Title X (PHS) funds from the North Carolina Department of Health and Human Services on a State fiscal year basis as a continuing grant to support the provision of comprehensive family planning services. Recipient agencies may include private, not-for-profit providers of services. Local projects are expected to maintain a low-income focus for service provision and adhere to State and federal guidelines.

### III. COMPLIANCE REQUIREMENTS

Noted below in the following matrix are the types of compliance requirements that are applicable to the federal program. These Types are determined by the federal agency, noted as “Y,” on the “Matrix of Compliance Requirements” located in Part 2 of the OMB 2021 Compliance Supplement; however, the State Agency may have added the Type and this is noted by “Y.” If the State determines that the federal requirement does not apply at the local level or if the State modifies the federal requirements, this is noted in the supplement under the type of compliance requirement. If the federal and/or State agencies have determined that the type is not applicable, it is noted by “N.”

If the Matrix indicates “Y,” the auditor must determine if a particular type of compliance requirement has a direct and material effect on the federal program for the auditee. For each such compliance requirement subject to the audit, the auditor must use the OMB 2021 Compliance Supplement, Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and Part 4 (which includes any program-specific requirements) to perform the audit.

If there is no program listed on the “Matrix” in Part 2 or Part 4, the State has determined the Type that is applicable. If a Type is determined direct and material, the auditor should refer to the requirements found in Part 3 and listed in this supplement.

(42 CFR Section 59.5(a)(7))

Charges for services to persons from families whose annual income exceeds 250 percent of the level set forth in the federal poverty guidelines should be made in accordance with a schedule of fees designed to recover costs of providing services. (42 CFR Section 59.5(a)(7))

1. Identifying the person's ability to pay,
2. Using the schedule of discounts to adjust rates based on ability to pay when appropriate, and properly recording and adjusting fees.

Test to determine whether fees were properly recorded based on ability to pay and adjusted based on the sliding fee schedule when appropriate.

Consolidated Agreement System

The DHHS Division of Public Health is made up of six major sections: Chronic Disease and Injury, Environmental Health, Epidemiology, Women's and Children's Health Services, Oral Health, and Administrative, Local and Community Support. The Division utilizes a single written agreement to manage all funds, that is, State, federal or private grant funds, that the Division allocates to local health departments across the State. This document, as amended, is called the Consolidated Agreement.

The Agreements set forth the more general requirements of the funding relationship between the State and local public health agencies. The respective requirements are detailed under the headings: Responsibilities of the Department (Local Public Health

Unit); Funding Stipulations; Fiscal Control; Responsibilities of the State; and Compliance. More specific information related to program activity is set out in a document called the Agreement Addenda which detail outcome objectives (which may or may not be negotiable at the beginning of each fiscal year) that each health department must achieve in exchange for the funding. A third part of the system is the which is sent annually from each of the Sections or Branches of the Division to all health departments being allocated funds from specific sources, i.e., State appropriations or other federal grant funds for specific activities. This Estimate indicates the amount of the allocated funds and their respective sources. Each health department should be able to provide an auditor with a copy of the Consolidated Agreement for the particular year being audited, as well as copies of the Budgetary Authorization and any revisions, Agreement Addenda, expenditure reports and any activity reports for each source of money received. If the health department cannot provide these documents, they may contact the State Division of Public Health Budget Office for assistance.

**Suggested Audit Procedures** – Section B. FUNDING STIPULATIONS of the Consolidated Agreement should be reviewed by the auditor before beginning an audit. The fourteen items of this Section describe much of the detailed information the Auditor may be seeking during a review of these programs.

**5. Conflicts of Interest and Certification Regarding No Overdue Tax Debts**

All non-State entities (except those entities subject to the audit and other reporting requirements of the Local Government Commission) that receive, use, or expend State funds (including federal funds passed through the N. C. Department of Health and Human Services) are subject to the financial reporting requirements of G. S. 143C-6-23 for fiscal years beginning on or after July 1, 2007. These requirements include the submission of a Notarized Conflict of Interest Policy (see G. S. 143C-6-23(b)) and a written statement (if applicable) completed by the grantee's board of directors or other governing body that the entity does not have any overdue tax debts as defined by G. S. 105-243.1 at the federal, State, or local level (see G. S. 143C-6-23(c)). All non-State entities that provide State funding to a non-State entity (except any non-State entity subject to the audit and other reporting requirements of the Local Government Commission) must hold the subgrantee accountable for the legal and appropriate expenditure of those State grant funds.

**6. Audit Objective** – Determine whether the grantee has adopted and has on file, a conflict-of-interest policy, before receiving and disbursing State funds.

**Suggested Audit Procedures**

1. Ascertain that the grantee has a written conflict of interest policy.
2. Check the policy and verify through board minutes that the policy was adopted before the grantee received and disbursed State funds.
