Brief Description of Program:

Funds are awarded through a competitive Request for Application process to community agencies for the purpose of establishing/maintaining school health centers that are school-based, or school-linked. The goals of the Program are:

1. To improve the health of older children and their readiness to learn by providing accessible preventive services through school-based and school-linked health centers that are planned and developed through community collaborations;
2. To provide comprehensive and coordinated school health services and programs that address health challenges and risks prevalent in school-aged youth, ages 10 to 19; and
3. To provide school-centered services and programs in collaboration with community-based organizations and systems of care.

Brief Description of Program:

The Division disburses receipt funds to each local health department as required in NCGS 130A-248(d) on an annual basis for support of local food, lodging, and institutions permitting and inspection programs. Funding is based upon program inspection compliance percentages and base rate. Funds may be utilized by the local health departments to administer state regulation activities related to state authorized agent performance of food, lodging, and institutional sanitation inspection activities. Such activities include educating staff, salary adjustments, computer hardware/software, clerical support, audiovisual aids and equipment, technical journal subscriptions, reference books, and necessary technical equipment related to food, lodging and institutional sanitation programs.

Brief Description of Program:

This program expands adoption opportunities for some of North Carolina's children for whom no suitable North Carolina family can be located. The county agencies work with specialized adoption agencies throughout the country that locate adoptive families that serve special needs children. These agencies base their fees on the actual average cost of the total services, which range from \$6,000 to \$13,000 or more per child. The maximum amount available to counties from the State for a child is \$1,800. The county agency must provide the amount that exceeds the State's allowable limit.

Title DSS Budget Manager
Phone Number (919) 527-6416

Brief Description of Program:

This program provides adoption assistance to certain children with special needs following entry of a Decree of Adoption. To qualify, these children must be in the placement responsibility of a North Carolina licensed private adoption agency or had been in the placement responsibility of a North Carolina licensed private adoption agency and meet all other adoption assistance eligibility requirements. Payments must be no greater than the foster care board rate. In addition, vendor payments for medical and non-medical specialized services may be provided up to \$2,400 per year.

Effective October 1, 2011 10A NCAC 70M .0403 was amended to include: "No monthly cash assistance payments from the State Fund for Adoptive Children with Special Needs shall be made for any adoption in which the Decree of Adoption is issued on or after October 1, 2011." All adoption assistance agreements signed prior to October 1, 2011 remain in effect. As of February 2022, statewide 370 cases were identified as active, and the total should continue to decrease across each fiscal year.

Sarah Smith
Adult Services Program Administrator
919-855-3401

**Agency Contact Person –
Financial**

Helen Tack
Interim Budget Officer
(919) 855-3400

Brief Description of Program:

Give a brief description of program including allowable activities:

The State Adult Home Specialist Fund was established by the General Assembly during the 1999 Session. Originally \$1,400,000 in State funds was identified for the Fund and allocations were made to county departments of social services where adult care home beds are located. County allocations are based on the number of adult care homes in each county as a proportion of the total number of homes statewide. These funds are intended to allow county departments of social services to increase the amount of time spent monitoring adult care homes in their county to assure compliance with licensure regulations. The federal financial participation rate (FFP) is 50% federal, 25% State, and 25% county. The total amount of State funds available to counties is \$875,000.

These funds may be used to create new adult home specialist positions in a county department of social services or to increase the full-time equivalency of an existing adult home specialist position. The Fund may also be used to upgrade and pay for salary increases to adult home specialist positions re-classified from Social Worker II to Social Worker III.

**N. C. Department of Health and Human Services
Division of Aging and Adult Services**

<u>Agency Contact Person - Program</u>	<u>Agency Contact Person - Financial</u>
Leslee Breen Senior Center and Transportation Specialist 919) 855-3414	Helen Tack Interim Budget Officer (919) 855-3400

Brief Description of Program:

Give a brief description of program including allowable activities:

For fiscal year FY22 \$1,265,316 authorized to award existing senior centers and developing programs with operational funding. Funding can be used for any purpose that supports the ongoing operation or development of the senior center. A developing senior center refers to the temporary status of a newly established center that is working towards becoming a multipurpose center or a satellite center within three years of its initial designation as a developing center.

If a developing center does not achieve status as a multipurpose center or satellite center after three years, General Purpose Funding is terminated. The Division of Aging and Adult Services allocates funding to area agencies on aging to make an award to designated senior centers. Awards to senior centers require 25% local matching.

Agency Contact Person – Financial

Christal Kelly
(984) 236-5008
Christal.Kelly@dhhs.nc.gov

Brief Description of Program: The State Traumatic Brain Injury (TBI) program funds are used to assist individuals with traumatic brain injury to receive the necessary support to remain in their communities. These individuals, once identified by the local authority as consumers in need of assistance, have access to program funds. Examples of what funds are used for are as follows: equipment/devices, behavioral supports, in-home supports, community supports, transportation, residential support, etc. The funds are used as a provider of last resort above and beyond what other funding sources may cover. These funds are also available when an individual is not eligible for any other funding source. Additional program needs identified may allow local authorities, other agencies and providers of service to people with traumatic brain injury to develop programs to meet specific needs. These funds are also used for funding other traumatic brain injury-related initiatives to improve the State and local service systems in identifying and increasing support and service to individuals with traumatic brain injury.

Organizations Funded: ☐ Private ☐ Local Government ☒ Both

Contract exists between DMH/DD/SAS and The Brain Injury Association of NC to carry out activities and programs identified as important in improving the quality of life for individuals with traumatic brain injury. Funds are disbursed to LME/MCOs on an availability basis for specific client requests.

URGENT REPAIR PROGRAM

State Authorization: GS122E

NORTH CAROLINA HOUSING FINANCE AGENCY

Agency Contact Person - Program

Name: Chuck Dopler
Title Rehabilitation Officer
Phone Number 919-981-5008
Email: jcdopler@nchfa.com

Agency Contact Person - Financial

Name: Taylor Davies
Title Sr. Accountant
Phone Number 919-875-3761
Email: tkdavies@nchfa.com

Brief Description of Program:

The goals of the Urgent Repair Program ("URP") are: 1) to alleviate housing conditions which pose an imminent threat to the life or safety of very low and low-income homeowners with special needs; and 2) to provide accessibility modifications and other repairs necessary to prevent displacement of very low and low-income homeowners with special needs, such as frail elderly and persons with disabilities. It is an objective of the URP to serve households with urgent repair needs which cannot be met through other state- or federally-funded housing assistance programs.

Program funds may be used for two purposes only: 1) "Hard costs" (materials, labor, etc.) associated with repairs or modifications of eligible dwelling units; and 2) "program support" costs for activities ancillary to the rehabilitation work (inspections, work write-ups, cost estimates, etc.). More specific definitions of these cost categories are provided in the Program Guidelines at section 2.1, "Eligible Uses of Funds" ("PG 2.1"). Definitions vary slightly by funding cycle.

Unless specifically funded for disaster assistance ("URP-D"), recipients must limit hard costs and soft cost to a maximum of \$10,000 per dwelling unit. Recipients may set more stringent limits, in their adopted Assistance Policies, than program limits.

Program support costs are limited, on a unit-by-unit basis, based on the amount of hard costs. Under URP94, that maximum was 10% of hard costs. Since URP97, a tiered approach has been used with levels of program support maximums based on ranges of hard costs. See P.G. 2.1.8 for details.

 State Subsidy to County Detention Facilities

Department of Public Safety
Division of Adult Correction and Juvenile Justice

<u>Agency Contact Person - Program</u>	<u>Agency Contact Person - Financial</u>
Angela P. Smith Director Juvenile Facility Operations 919-324-6478	Tara Williams-Brown Controller 919-324-1409

Brief Description of Program:

I. PROGRAM OBJECTIVES

In accordance with North Carolina General Statutes 143B-820, State Subsidy to County Detention Facilities, the Section shall administer a State subsidy program to pay a county that provides juvenile detention services and meets State standards a certain per diem per juvenile. In general, this per diem should be fifty percent (50%) of the total cost of caring for a juvenile from within the county and one hundred percent (100%) of the total cost of caring for a juvenile from another county. Any county placing a juvenile in a detention facility in another county shall pay fifty percent (50%) of the total cost of caring for the juvenile to the Section. The per diem rate is set at \$244 per juvenile, per day.

II. PROGRAM PROCEDURES

The five (5) counties that provide juvenile detention services are Durham, Guilford, Mecklenburg, Madison and Brunswick. The Durham County-operated facility, the Guilford County-operated facility and the Mecklenburg County-operated facility submit invoices to Juvenile Justice/Detention Services section by the 10th of each month. The invoices are reviewed for any errors in the number of days a juvenile was detained and the county responsible for the bill. The Madison County-operated facility and the Brunswick County-operated facility submit invoices to Juvenile Justice/Detention Services section by the 10th of each month for utilization exceeding the minimum number of beds provided pursuant to respective agreements. The invoices are reviewed for any errors in the number of days a juvenile was detained and the county responsible for the bill, as well as against the terms of the Memos of Agreement.

13. Sub-Recipient Monitoring
NC-JOIN is a program/system and is the sub-recipient monitoring tool used to enter juveniles as they enter DPS Juvenile Detention Centers, Youth Development Centers, or any other applicable treatment program. Admissions and releases, as well as other vital information concerning juveniles, are entered into NC-JOIN. This enables those individuals authorized to use the program access to any information that is vital to the placement of a juvenile.
14. Special Tests and Provisions:
 - a) Verify that checks received from DPS are for actual resident days [Durham, Guilford, Mecklenburg Counties], or meet the terms of the Memo of Agreement [Madison and Brunswick Counties].
 - b) Does the amount of check received balance to the amount invoiced?
 - c) Test actual data from NC-JOIN to the facility data (verify names and dates), and from NCALLIES to the Madison and Brunswick Counties MOA's.
 - d) Verify the amount billed reconciles to the approved rate for the facility.

Project C.A.R.E. (Caregiver Alternatives to Running on Empy) provides critical comprehensive support, including respite care vouchers, to vulnerable unpaid family caregivers of individuals living with Alzheimer's disease or other related dementia (ADRD). The program effectively reaches isolated rural and minority communities through culturally sensitive outreach strategies with a unique family-centered, in-home intervention. Project C.A.R.E. aims to minimize State expenses and maximize the family's potential to provide the most appropriate, high quality and cost-effective care in the least restrictive setting thus delaying or preventing the need for institutionalization.

Project C.A.R.E. contracts with six community-based organizations to provide care consultation services in all 100 counties. Family consultants collaborate closely with the sixteen Area Agencies on Aging (AAA) and the Family Caregiver Support Program. This relationship allows for available resources to be coordinated and leveraged for maximum impact. Family consultants provide support directly to caregivers of persons living with ADRD by:

1. Offering care consultation services: dementia-specific information, caregiver assessments and individualized care plans, caregiver education and connections to social support networks,
2. Linking families with available community resources to address unmet needs including local support groups, supportive services, entitlement programs and other community resources,
3. Partnering with each AAA through its Family Caregiver Support Program to provide outreach, training and education,
4. Providing caregivers consumer-directed respite care vouchers (\$500 each) whereby the caregiver decides who, when and where to hire help,
5. Providing training and assistance to AAA and the community-at-large to increase capacity to assist persons with dementia and their families and
6. Enhancing partnerships with and among the various entities serving persons living with ADRD and assisting their care partners.

STATE PROJECT C.A.R.E.

The total annual budget for Project C.A.R.E. is \$1,033,333. Six organizations are awarded funds to provide Project C.A.R.E. regionally and one entity to financially manage the respite voucher awards.

Title Sr. Accountant
Phone Number 919-875-3761
Email: tkdavies@nchfa.com

Brief Description of Program:

The primary objectives of the Construction Training Partnership (CTP or the Program)) are to:

- 1) provide basic, yet broad-scoped, construction training to unemployed and/or underemployed individuals;
- 2) upon completion of training, provide job placement services which result in students being employed within the construction field, and earning a living wage;
- 3) increase the number of skilled construction workers available for hire within the regions where CTP training is provided; and,
- 4) to facilitate the rehabilitation or new construction of "affordable" housing which, while serving as field laboratories for CTP training classes, also benefits low-income homeowners and/or renters.

Agency provided CTP funds may be used only for the hard costs of eligible program-related new construction or rehabilitation activities. Eligible hard costs are: 1) the cost of building materials and supplies used or consumed; 2) the cost of subcontracted trades, 3) the reasonable costs associated with the short-term rental of specialty tools; and 4) the reasonable cost of contractor profit and overhead.

Brief Description of Program:

The Medication Assistance Program (MAP) is a safety net for uninsured, low-income individuals in the state. Participating Free and Charitable Clinics, Community Health Centers, and Rural Health Centers provide access to free and low-cost medication through pharmaceutical company programs for low income, uninsured patients who cannot afford them. This service, currently offered through 102 sites uses special software, which matches patients' eligibility with available free medications.

Grantees of this program shall use all funds awarded to support the MAP, specifically:

- Assist all low-income citizens with identifying their optimal prescription drug coverage options through public and private programs, and then provide direct assistance in obtaining medication using the special software. Grantees must specify a dispensing plan that will ensure their patients will receive the medications that are procured on their behalf.
- Collaborate closely with local public and private health care providers including pharmacists, primary care physicians, health departments, hospitals, senior centers, Area Agencies on Aging, and local SHIP coordinators to ensure the success of their efforts

In addition, the grantee may also work with Medicare eligible seniors to:

- Identify their optimal Medicare Part D coverage option
- Access public or private prescription assistance programs to cover gaps in Medicare Part D (e.g. coverage gap)
- Apply for any available public or private prescription assistance programs for seniors who do not enroll for Part D

Brief Description of Program:

Funds are awarded through a competitive Request for Application process to public or private non-profit major medical centers with a genetics program and a fully functioning AFP laboratory to provide maternal serum screening to pregnant women in NC with low income. The goal of this program is to increase access to maternal serum screening for pregnant women with low income and to reduce neonatal mortality and the incidence of chronic handicapping conditions by identifying high risk pregnancies for neural tube defects, Down syndrome and trisomy 18. The required services include provision of maternal serum screening to pregnant women in NC with low income, education of physicians and other health care providers about this program and about the importance of screening; accurate interpretation of lab results to physicians so that they can discuss counseling options with patients; and provision of additional types of testing to the pregnant woman if indicated by the screening test result.

Brief Description of Program:

The Women's Health Branch provides funding to 11 of the State's network of 20 high risk maternity clinics (10 local health departments and 1 appropriated university medical center). Each clinic in the network is located in a hospital or health department staffed by obstetricians, nurses, social workers and nutritionists. The hospitals have inpatient services appropriate to the care of mothers and infants with medical complications (pediatricians, obstetricians, and other specialty physicians). Each clinic serves a multi-county area. The receipt of these funds is based upon the need for high risk maternity services in their catchment area.

Local health departments must meet program outcome objectives within the term of the contract, as specified in agreement addenda, in exchange for the funding. Non-local contractors have objectives outlined in their contracts. Objectives are tracked through program monitoring activities, and reports that are on file in the local health departments.

Brief Description of Program:

Funding under this award is critical to ensuring the safe transportation of hazardous materials by training emergency responders and funding planning activities such as commodity flow studies, tabletop exercises and emergency response plan development. PHMSA's training goal is to ensure that responders who receive training under the grant will have the ability to protect nearby persons, property, and the environment from the effects of accidents or incidents involving the transportation of hazardous materials. PHMSA's goal for planning activities is to develop, improve, and carry out emergency plans under the Emergency Planning and Community Right-To-Know Act of 1986 ([42 U.S.C. 11001 et seq.](#)), including ascertaining flow patterns of hazardous material transportation movement.

HMEP funding is awarded to states in a 3-year grant award cycle. NCEM is awarded HMEP funding on behalf of the state of NC from PHMSA. NCEM passes-through HMEP funding to subrecipients including local governments and Local Emergency Planning Committees (LEPCs) for approved HMEP activities.

Phone Number: 984-236-0090

Brief Description of Program:

The purpose of this program is to provide funding to centers for victims of sexual assault and to The North Carolina Coalition Against Sexual Assault, Inc. The sexual assault/rape crisis center shall be a nonprofit corporation or a local government entity.

The General Assembly appropriates funds each fiscal year for operation of the Sexual Assault/Rape Crisis Centers throughout the State that offer basic core services including: hotline services, crisis services, transportation, shelter services, advocacy (legal, medical, court), individual counseling, support group, and community education. The centers are responsible for operating each center per the program guidelines provided.

Program funds may be expended for costs incurred in providing direct services to victims of sexual assault through counseling, intervention, and community education programs. These functions must be performed on a continual basis. All funds must be expended as budgeted. They include staffing, training of staff and volunteers, travel, printing, supplies, rent, utilities, communications, transportation, and shelter operation costs and room charges. The purchase of equipment in excess of \$500.00 and contracts entered into for consultant services require prior written approval by the grant administrators. All line-item transfers must receive prior written approval.

Grant funds may not be expended for loans; mortgage payments; taxes; entertainment costs; social activities; alcoholic beverages; flowers; debt payments, fines and penalties; cost of lobbying to influence legislators to support or vote for or against legislation; or any cost/expenditure not included in the approved budget.

MARTIN LUTHER KING, JR. COMMISSION STATE APPROPRIATION

State Authorization: **G.S. 143B-426.34A**

**North Carolina Department of Administration
Office of the Secretary**

Agency Contact Person - Program

Name: David Elliott
Title: DOA Deputy Secretary
Phone Number: 984-236-0020

Agency Contact Person - Financial

Name: Angela Chafalovitch
Title: Controller, Office of Fiscal Mgmt
Phone Number: 984-236-0090

Brief Description of Program:

The purpose of this program is to encourage appropriate ceremonies and activities throughout the state relating to the observance of the legal holiday honoring Martin Luther King, Jr.'s birthday, to provide advice and assistance to local governments and private organizations across the state with respect to the observance of such holiday, and to promote among the people of North Carolina an awareness and appreciation of the life and work of Martin Luther King, Jr.

To apply for grant funds, each prospective recipient must submit an application in response to the annual Request for Proposal (RFP). All applications are received and reviewed by a committee consisting of members of the Martin Luther King, Jr. Commission.

The Commission determines the organizations that will receive awards and the amount of each award.

Each requesting agency/organization must address elements of the RFP, presenting the objective of their project, scope of work, budget and outcomes. After the Commission recommends awards, the recipient organization is notified of its successful application and amount of funding.

The Department of Administration (DOA) assists the Commission in developing contractual documents that are signed by the grantee and approved by DOA's Office of Fiscal Management and Secretary. The contract includes the name and address of the grantee, federal identification number, statement of work and budget. After DOA approval, funds are advanced to these organizations.

Funds must be expended to comply with the criteria specified in the work plan. Expenditures usually include staffing, office supplies and education/outreach activities associated with disseminating information about the life and legacy of Dr. Martin Luther King, Jr., as well as commemorating his birthday.

Phone Number: 919-527-6447

Brief Description of Program:

This program is designed to assist local leaders with the development and implementation of strategies for improving health care access for rural residents. Technical assistance and limited financial resources are provided to underserved communities in developing and maintaining rural health centers. The objective of the Rural Health Centers Operational Grant Program is to make primary health care services available and accessible to residents of rural underserved areas that have previously experienced an insufficiency of such services. Operational funding is provided through the Medical Access Plan (MAP) to help offset the cost of providing primary care medical services and limited integrated behavioral health services to underserved residents in the rural health care center's service area. In addition, it provides funds for planning and implementation as well as innovation projects to move rural health centers towards triple aim and practice transformation which improves access, quality, and cost effectiveness of health care.

Samantha.Radel@dhhs.nc.gov

Brief Description of Program:

Purpose: The Injury and Violence Prevention Branch (IVPB) mission is to promote and protect the health and well-being of all people in North Carolina by preventing injury and violence. As part of the overall mission to prevent sexual violence in North Carolina, the IVPB receives and administers federal funds for the Rape Prevention and Education (RPE) Program. Funds are awarded to local agencies and organizations to provide prevention-oriented education and training in local communities. Funds are awarded to the North Carolina Coalition against Sexual Assault (NCCASA) to provide training, technical assistance, and tools to support local agencies/organizations in their prevention activities.

The Rape Prevention and Education Program is administered by the Centers for Disease Control and Prevention (CDC). Federal legislation specifies the major areas of allowable activities that are aimed at preventing rape and sexual assault, and the CDC has set program priorities and provided guidance to all states and territories for implementing the program. CDC expects all RPE programs at both the state and local levels to use a public health approach; to undertake planning, including an assessment of community needs and assets; to perform program evaluation; and to focus on primary prevention – preventing initial sexual violence perpetration and victimization.

Agencies Funded: Community based organizations and local rape crisis centers.
Services Provided by Agencies: Federal Funds are to be used for sexual violence program implementation in local school settings, provide bystander intervention, and community mobilization.

Monitoring: Agencies participate on monthly calls; submit monthly expenditure reports; and mid-term and end of the contract year reports to report expenditures, activities and outcomes to the Program Supervisor.

Acting Chief Budget Officer
(919) 623-3312

Brief Description of Program:

This grant supports enhanced surveillance capacity at the state level to prevent and eliminate childhood lead poisoning, and to use surveillance data to identify the highest risk areas and implement appropriate population-based interventions. Examples of such interventions include enforcement of housing and health codes and public and health care provider education campaigns. Data may also be used to designate areas as 'lead safe' and qualify applicants to apply for a universal blood lead testing waiver through Medicaid. Surveillance data is also used to evaluate the timeliness and efficacy of case management of children identified with high blood lead levels.

This grant was acquired through a competitive application process submitted through the grants.gov website. The Centers for Disease Control and Prevention (CDC) awarded North Carolina \$534,000, beginning September 30, 2020, for the third year of a three-year project period. This project is 100% federally funded and has no matching or maintenance of effort requirements. The one subrecipient, UNC Chapel Hill Institute for the Environment (\$125,103), was selected based on necessary technical skills (e.g., health education and grant coordination expertise) and was approved by the CDC through the application review process. The portion of the grant transferred to UNC is by contract reimbursement. Performance requirements and measures are communicated to the UNC through the contracting process. Deliverables are monitored by site visits and required reports. Grant awards may not be expended for research, medical care and treatment, or for environmental remediation of lead sources. Funds may be used only for reasonable program purposes, including personnel, travel, supplies, and services.

Samantha.Radel@dhhs.nc.gov

Brief Description of Program:

The Injury and Violence Prevention Branch (IVPB) mission is to promote and protect the health and well-being of all people in North Carolina by preventing injury and violence. In 2011 the Branch was awarded funding from the Centers for Disease Control and Prevention to implement the Core Violence and Injury Prevention Program (CORE VIPP).

The overall purpose of the program is to assist State Health Departments (SHDs) to build and/or maintain effective delivery systems for dissemination, implementation and evaluation of best practice programs and policies. This includes support for general capacity building of SHDs and their local partners, as well as strategy specific capacity building for the implementation of direct best practice interventions (older adult falls and child injury). In addition, this program supports SHDs in their efforts towards integration or the strategic alignment of resources for meaningful change.

Base Component (BASE): This component will provide support to SHDs to develop and strengthen their injury and violence prevention programs by increasing general capacity in key areas identified as core components of SHD injury and violence prevention programs. Additional focus will be placed on traumatic brain injury and falls prevention activities focused on seniors.

Regional Network Coordinating Organization (RNCO): Resources and capacity for injury and violence prevention and control are limited and vary by state. Systematic efforts are needed to share information and best practices and make it available to all potential users. A regional network of states encourages the creation, sharing and effective application of knowledge to address injury and violence prevention and control within all states. The purpose of the regional network coordinating organization is to collaborate across and

between states to build capacity, share best practices and scientific evidence and increase injury and violence prevention capacity through the regional network to prevent and reduce injury and violence.

Enhance Supplement (ENHANCED): This component will provide support to community coalitions to build capacity through the implementation of public health actions to prevent injury in disproportionately affected communities. This supplemental funding will focus on providing training on community-level factors that reinforce Adverse Childhood Experiences, AKA ACES, as well as provide community coalitions with training and technical assistance to implement strategies that promote injury and violence prevention.

Agencies Funded: State universities.

Services Provided by Agencies: Federal Funds are to be used for injury and violence prevention program implementation in community and policy settings.

Monitoring: Agencies participate on monthly calls; submit monthly expenditure reports; and mid-term and end of the contract year reports to report expenditures, activities and outcomes to the Program Supervisor.

Brief Description of Program:

The purpose of the Healthy Beginnings Program is to fund projects in various communities to impact the reduction of minority infant mortality and preterm and low birthweight births to improve minority birth outcomes. Funds are given to local health departments and private non-profit organizations to support local community-based minority infant mortality reduction efforts.

In 1994, the North Carolina General Assembly appropriated \$750,000 annually to fund fifteen projects that would demonstrate means to lower infant mortality and low birth weight rates among minority populations. Funding was decreased in 2001 to \$700,000 to fund 14 projects. In 2009, funds from the Targeted Infant Mortality Reduction Program (TIMR) were merged with Healthy Beginnings. The goal of the Healthy Beginnings Program is to address the two-fold plus disparity between white and minority infant mortality in the State of North Carolina by targeting areas with significant minority infant mortality. A community-based approach addressing infant mortality was mandated with a specific focus on the formulation and implementation of innovative strategies to improve birth outcomes and involvement from a variety of community organizations.

Community and faith-based organizations and local health departments with experience working in minority communities are eligible to apply for Healthy Beginnings funding.

Funded recipients are expected to implement programs that will impact the reduction of minority infant mortality and low birthweight births in their communities and thereby improve minority birth outcomes. Funding is available for 3 years, contingent upon the availability of funds and performance. In FY2021-2022, there are 10 sites funded at an award level of \$77,000 to \$79,000 annually.

Brief Description of Program:

Temporary Assistance for Needy Families (TANF) Block Grant funds are distributed in accordance with the TANF Block Grant Plan approved by the North Carolina General Assembly. These TANF funds are used to support local pregnancy prevention project activity. The allocation of TANF for TPPI, as well as State appropriation expended for similar purposes, is administered by the Family Planning and Reproductive Health Branch, Division of Public Health, North Carolina Department of Health and Human Services, 1929 Mail Service Center, Raleigh, North Carolina 27699-1929, (919) 707-5700. A request for applications process is undertaken to identify projects seeking funding for a four-year period. Following an objective review of proposals, the North Carolina Department of Health and Human Services makes a final decision. Following project selection, each agency is expected to meet goals established in the project plan as well as in-kind matching and reporting requirements, as explained in the legislation and service contract. Periodic site visits are made by program staff to assure that the appropriate focus on project goals is maintained. Data is collected from active projects and used in program evaluation. [G.S. 130A-131.15A (a)-(g)].

The purpose of the Care Management for Children (CMARC) Program is to assist families to identify and utilize health care resources needed to meet needs of children ages birth to five. Special emphasis is given to serving children who have chronic illnesses, disabling conditions or developmental delays, or those who are at particular risk for these conditions, and children who are exposed to toxic stress. Program funds are used to provide these services to children with no other third party coverage (e.g. Medicaid) for these services. Services are provided using Medicaid guidelines for same services for Medicaid program participants. [G.S. 130A-124]

Brief Description of Program:

The local child fatality prevention teams (CFPTs) were legislatively established in 1993 and there are teams in all 100 counties. It is the responsibility of the Local Health Departments to assure these teams are operational. The mission of the local teams is to review the deaths of children, ages 0-17, that are not due to suspected abuse and neglect and about which no report for abuse or neglect had been made to the county department of social services within the previous 12 months. The local CFPTs review those child deaths due to homicide, suicide, fires, illness, prematurity and perinatal cause, among others, to search for ways to prevent child deaths.

Brief Description of Program:

The purpose of the Care Management for High-Risk Pregnancies Program (CMHRP) funding for Uninsured Women Ineligible for Medicaid is to provide specialized prenatal and postpartum care management services to low income, pregnant women ineligible for Medicaid. The goal of CMHRP services is to prevent adverse pregnancy outcomes and improve birth outcomes, with a particular focus on reducing the rate of preterm birth.

Many women in North Carolina enter pregnancy with medical and psychosocial risk factors that affect their health and the health of their infants. CMHRP Services consist of interventions provided by a nurse or a social worker, during and after pregnancy, to increase access to needed medical, education, and social services, to address these factors that impact poor maternal and infant health outcomes, including infant mortality. Care management services include assessment, intervention, referrals and coordination of care. Additional information on the specific program requirements can be found in the Division of Health Benefits Program Guide for Management of High-Risk Pregnancies and At-risk Children in Managed Care.

samantha.radel@dhhs.nc.gov

Brief Description of Program:

The Tobacco Prevention and Control Branch (TPCB) collaborates with and builds capacity of partners, including State and local agencies, local health departments and community organizations, to plan and implement culturally appropriate evidence-based strategies to reduce deaths and health problems due to tobacco use and secondhand smoke (SHS). TPCB's four major goal areas are to: 1) Prevent initiation of tobacco use among youth and young adults, 2) Promote tobacco use cessation among adults and youth, 3) Eliminate exposure to SHS, and 4) Advance health equity by identifying and eliminating commercial tobacco product-related inequities and disparities.

Tobacco use remains the number one preventable cause of early death and disease in North Carolina. Smoking is responsible for 14,200 deaths per year – 1 of every 5 deaths in North Carolina – and is a major risk factor for the leading causes of premature death. For each death, 30 more people are sick or disabled because of tobacco use. In 2019 North Carolina ranked 38th in the nation for adult cigarette smoking with a rate of 18.5% (where being ranked 1st is best.) North Carolina's direct medical costs from smoking are \$3.81 billion each year and the estimated annual health care costs from exposure to secondhand smoke are \$293 million. Smoking caused productivity losses in North Carolina are and additional \$4.24 billion annually. According to the 2014 US Surgeon General's Report, tobacco product marketing is key factor that sustains the tobacco epidemic. In North Carolina, the current estimate that the tobacco industry spends to

NATIONAL STATE-BASED TOBACCO CONTROL PROGRAMS

market their addictive products is \$391.m million annually. While cigarette smoking has declined among North Carolina's young people from 15.5% of high school students in 2011 to 5.7% in 2019, all tobacco use increased from 25.8% of high school students in 2011 to 27.3% in 2021 due to the use of emerging tobacco products, especially flavored electronic cigarettes/e-cigarettes/vaping devices, which are the top tobacco product used by high school students. E-cigarettes are followed by cigarette use, and then cigars/cigarillos/little cigars, which are often marketed with flavors.

Brief Description of Program:

NSGP provides funding support for target hardening and other physical security enhancements to non-profit organizations that are at high risk of a terrorist. The program seeks to integrate the preparedness activities of non-profit organizations that are at high risk of a terrorist attack with broader state and local preparedness efforts. NSGP also serves to promote emergency preparedness coordination and collaboration activities between public and private community representatives as well as state and local government agencies.

There are two NSGP funding sources appropriated for nonprofit organizations: 1) **NSGP - Urban Area (NSGP-UA)** funds nonprofit organizations located within certain Urban Area Security Initiative (UASI)-designated urban areas; and 2) **NSGP - State (NSGP-S)** where each state receives a target allocation for nonprofit organizations located outside of UASI-designated urban areas. Charlotte, NC is currently the only UASI-designated urban area in the state for HSGP-UA, and the state of NC received over \$2.5M in NSGP-S funds in FY21.

Brief Description of Program:

Provide funds to assist state, local, tribal & territorial emergency management agencies to implement the [National Preparedness System](#) (NPS) and to support the National Preparedness Goal (the Goal) of a [secure and resilient nation](#). Program objectives include: 1) closing capability gaps that are identified in the state or territory's most recent Stakeholder Preparedness Review (SPR); and 2) building or sustaining those capabilities that are identified as high priority through the Threat and Hazard Identification and Risk Assessment (THIRA)/SPR process and other relevant information sources. DHS/FEMA requires [EMPG](#) recipients to complete a THIRA/SPR. All EMPG applicants are required to submit a Work Plan as described in the [Preparedness Grants Manual](#). Priorities, and associated EMPG-funded projects, must be mutually agreed to by the recipient and FEMA Regional Administrator. The intent is to fund projects that address areas for improvement identified through lessons learned from past disasters, including: Logistics – Distribution Management Planning, Evacuation Plan/Annex, Disaster Financial Management, Catastrophic Disaster Housing, Resilient Communications, and Implementation of [Community Lifelines](#). ARPA provided over \$2.6 million in additional funding to NC for the FY21 EMPG Program. For fund tracking and accountability purposes, eligible applicants were required to submit two separate EMPG applications: one for the original FY 2021 EMPG Program allocation; the other for the EMPG ARPA supplemental allocation.

Brief Description of Program:

The Family Violence Prevention and Services Program administers the Family Violence Prevention and Services Act (FVPSA), the primary federal funding stream dedicated to the support of emergency shelter and related assistance for victims of domestic violence and their children.

FVPSA is a primary federal grant funding stream for local domestic violence programs to provide core services, including crisis response, safe housing, advocacy, counseling, legal assistance, safety planning, and comprehensive support.

Specifically, FVPSA's statutory purposes per 42 U.S.C. § 10401(b) are to

- (1) assist States and Indian tribes in efforts to increase public awareness about, and primary and secondary prevention of, family violence, domestic violence, and dating violence; and
- (2) assist States and Indian tribes in efforts to provide immediate shelter and supportive services for victims of family violence, domestic violence, or dating violence, and their dependents.

The federal cognizant agency is the U.S. Department of Health and Human Services Administration for Children and Families. The NC Council for Women and Youth

Brief Description of Program:

The General Assembly of the State of North Carolina authorizes funding to certain Visitor Centers (NCGS 20-79.7(c)(2) revised) located within rest area sites or at stand-alone sites, for the purpose of providing visitor information to the traveling public. The Visitor Center Agreements specify the activities allowed and unallowed. Funding may only be used for allowable operational costs and in accordance with the cost principles and uniform administrative requirements defined in the OMB Uniform Guidance, 2 CFR 200, and/or state policies. Each Visitor Center Funding agreement specifies the activities allowed to be funded under the program.

The program is administered by the North Carolina Department of Transportation, hereinafter referred to as the Department. Recipients are nonprofit organizations or local governments appointed by the State Legislature. The recipients receive an allocation of \$92,857 annually from the Special Registration Plate fund with an additional \$50,000 from the Highway Fund (with the exception of the McDowell Visitor Center and the visitor center in Transylvania County which receives an annual allocation of \$25,000 from the Highway Fund, and Tabor City, in Columbus County, Fair Bluff in Columbus County, Randolph County – two visitor centers, and Wilkes County, which does not receive an allocation from the Highway Fund at this time).

On NCDOT's confirmation Grant Master List (GML), the Visitor Centers' program disbursements are identified as State No.: DOT-13

Brief Description of Program:

The New and Emerging Crops Program identifies potential new crops, products, and agricultural enterprises and provides the agricultural research, marketing support, and grower education necessary to make those crops or products profitable for North Carolina growers. It has three components: market exploration, field research and grower education.

Research ideas and proposals for new and emerging crops will be solicited from growers, marketing and scientific researchers and industry representatives. Initial field research may occur on one or more of North Carolina's 18 agricultural research stations to determine if a new crop is appropriate for a particular climate or soil type. For value added products, research may occur in a laboratory setting. The third component of the New and Emerging Crops Program is grower education. Those who decide to grow a crop or produce a new value-added product will be provided the assistance in growing and marketing the crop or product.

NECP will serve as a valuable resource for N.C. growers looking to diversify into new crops, products and enterprises. Expanded production knowledge for new crops as well as additional marketing opportunities will keep farm operations profitable and sustainable, provide an economic stimulus to rural North Carolina and position North Carolina to continue as a leader in the agricultural industry.

(919) 623-3122
Samantha.Radel@dhhs.nc.gov

Brief Description of Program:

The purpose of the Infant Mortality Reduction program is to provide funds to local health departments to implement evidence-based programs in the counties that have experienced the highest infant mortality rates during the five-year period of 2010-2014.

In the state fiscal year 2015-2016, the North Carolina General Assembly appropriated one million five hundred and seventy-five thousand dollars (\$1,575,000) in the Maternal and Child Health Block Grant Plan to the Department of Health and Human Services' (DHHS) Division of Public Health (DPH) for each year of the 2015-2017 fiscal biennium to be used for evidence-based programs in North Carolina counties with the highest infant mortality rates. These funds continue to be re-appropriated.

All local health departments were required to implement or expand upon at least one evidence-based strategy that is proven to lower infant mortality rates. The evidence-based strategies were the following: 17P (alpha hydroxyprogesterone) injections to prevent preterm births; Centering Pregnancy model of group prenatal care; doula services program, reproductive life planning services; Nurse Family Partnership program; infant safe sleep practices; and tobacco cessation and prevention. The selected strategies have all proven to be an effective means to improve birth outcomes through addressing pregnancy intendedness, preterm birth, and/or infant death.

The funding distribution was based on the number of infant deaths per county during the five-year period of 2010-2014. In 2021-2022, there were 21 local health departments funded under this program.

Brief Description of Program:

This program provides grants to assist States in operating statewide vocational rehabilitation (VR) programs, each of which is an integral part of a statewide workforce development system. The VR program is designed to provide VR services for individuals with disabilities, consistent with their strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice, so that they may prepare for and engage in competitive integrated employment and achieve economic self-sufficiency. Eligible individuals are those who have a physical or mental impairment that results in a substantial impediment to employment, who can benefit from VR services for employment, and who require VR services. Priority must be given to serving individuals with the most significant disabilities if a state is unable to serve all eligible individuals.

Brief Description of Program:

Grants will be awarded based on their relevancy to the powers and duties outlined in NC General Statute § 20-7.6. "Awarding grants-in-aid to non-profit entities to conduct education and awareness activities on organ and tissue donation and advance care planning." Grants will be considered for but are not limited to the following areas as they relate to the purposes stated above:

- Implementing general education and community outreach.
- Targeting education to multicultural populations.
- Supporting partnerships committed to organizational and community change.
- Collaborating between agencies and organizations that develop statewide initiatives for change.
- Networking with other foundations, trusts, and commissions to enhance the overall outcomes of this funding.

Types of eligible non-profit entities might include but are not limited to Organ Procurement Organizations, Tissue Banks, Eye Banks, Coalitions on Donation, Advance Care Planning and End-of-Life Organizations, Schools, Colleges and Universities, Civic Organizations, Faith Communities, Museums and Libraries.

The process for applicants requesting grants-in-aid is done in three phases: Letter of Intent; Full Application & Agreement and Release of Funds.

After the final selection is made, each grant recipient must execute a State of North Carolina Contract before receiving the approved amount of grants-in-aid.

Expenditures or outlays from state grant funds shall not exceed the budgeted amounts for each line item or for the total grant. Allowable costs are Personnel, Travel, Supplies, Equipment, Advertising, Printing, Copying and Postage, Other cost such as Accounting, SWIPE to Donate app, Communications and Public Outreach Software Services.

Fax: (919) 715-8718
Pknelms1@ncdot.gov

Brief Description of Program:

Grants are made under other special purposes for the Railroad Station Improvement Program to provide assistance in the rehabilitation of historic transportation facilities. Federal funds are provided through the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) Enhancement Program funds, which are matched by the state and the municipality receiving the grant. Some Railroad Station Improvement Program projects may be funded with State funds (NC Moving Ahead Rail Reserve funds) in addition to Federal funds. The project expenditures using these State funds should follow the same guidelines as the Federal fund expenditures.

The state has determined that federal Enhancement funds may be expended on approved railroad stations and transportation facilities. The Department of Transportation determines the elements of each project that will be eligible for Enhancement funds, and these elements are identified in the grant agreement. Municipalities procure architectural, engineering and construction services, incur costs, and are reimbursed for ninety percent of eligible costs. All eligible costs are on a reimbursement basis only.

Brief Description of Program:

The Public Access program was established to fund access projects including:

- Access projects that assist in attracting new industry or expanding industry
- Public school bus drives, including driveways and stabilization of bus parking
- Access roads to public airports and medical facilities
- Driveways for rural fire district and rescue squad facilities, includes driveway access to bays (new or expansion)

The program is administered by the North Carolina Department of Transportation (NCDOT). NCDOT state forces or NCDOT-appointed contractors are not completing the work, eligible recipients of the funds are local governments appointed by the State Legislatures. Funding is limited to \$50,000 per public school site, \$25,000 per Fire Department & Rescue Squad driveway project, or \$1,000 per employee for Industrial access project for a new or expanding industry (up to \$250,000 maximum per industrial project unless waived by the Secretary of Transportation).

Brief Description of Program:

Funds are awarded through ‘Aid to County’ to Local Health Departments for the purpose of utilizing NC Regional Collaboratives to engage, screen and deliver the North Carolina Minority Diabetes Prevention Program (NC MDPP) that includes the CDC curricula “Prevent T2” and “Prevenga el T2” to a cohort of minority communities within its region. The goal of NC MDPP is to establish a statewide framework to decrease the incidence of diabetes in minority communities. NC MDPP is composed of three main components:

- (1) Community screenings for prediabetes and region-specific targeted marketing campaigns in minority communities promoting prediabetes and diabetes awareness.
- (2) 12-month NC MDPP Lifestyle Class Series in minority communities,
- (3) Community conversations to minority communities across North Carolina.

Brief Description of Program:

The Injury and Violence Prevention Branch (IVPB) mission is to promote and protect the health and well-being of all people in North Carolina by preventing injury and violence. In 2019 the Branch was awarded funding from the Centers for Disease Control and Prevention to implement the Overdose Data to Action (OD2A) cooperative agreement.

The purpose of this funding is to integrate an interdisciplinary and cohesive approach to advance and evaluate comprehensive state-level interventions for preventing prescription drug overuse, misuse, abuse, and overdose, as well as improve the timeliness of fatal and nonfatal opioid overdose surveillance. It builds on previous CDC funding opportunities: Prescription Drug Overdose Prevention for States and Enhanced State Surveillance of Opioid-Involved Morbidity and Mortality. Interventions of priority address drivers of the prescription drug overdose epidemic, particularly the misuse and inappropriate prescribing of opioid pain relievers. Priorities include prevention strategies to improve safe prescribing practices and prevent prescription drug overuse, misuse, abuse, and overdose; as well increasing the timeliness and dissemination of fatal and nonfatal opioid overdose and associated risk factor reporting to key stakeholders. The priority strategies are:

1. Enhance and maximize a state PDMP (Prescription Drug Monitoring Program).
2. Implement community or insurer/health system interventions aimed at preventing prescription drug overdose and abuse.
3. Conduct policy evaluations.
4. Develop and implement Rapid Response Projects.
5. Increase the timeliness and dissemination of aggregate fatal and nonfatal opioid overdose and associated risk factor reporting.

NC OVERDOSE DATA TO ACTION PROGRAM

Agencies Funded: Community based organizations, local health departments, and state universities.

Services Provided by Agencies: Federal Funds are to be used for opioid drug overdose prevention and surveillance.

Monitoring: Agencies participate on monthly calls; submit monthly expenditure reports; and mid-term and end of the contract year reports to report expenditures, activities and outcomes to the Program Supervisor.

Brief Description of Program:

North Carolina's Maternal Mortality Review Committee (MMRC) is comprised of 9 multidisciplinary members along with 12 additional specialty consultants. The MMRC will continue to review all maternal deaths through quarterly meetings. The MMRC will disseminate findings and recommendations to policy makers, health care providers, health care facilities, and the general public. The duties of NC's MMRC reviews includes gathering information to understand the drivers of maternal mortality, complications of pregnancy and associated disparities as well as how best to implement interventions that will have the most impact at the patient, provider, facility, system and community levels; and disseminate findings and recommendations ranging from policy makers to the general public in a manner that is best understood.

Brief Description of Program:

The N.C. Resilient Coastal Communities Program aims to facilitate a community-driven process for setting coastal resilience goals, assessing existing and needed local capacity, and identifying and prioritizing projects to enhance community resilience to coastal hazards. Participating communities will walk through a framework leading to the development of "shovel-ready" projects. Local governments throughout the 20 coastal counties will be eligible to apply for direct technical assistance to complete a community engagement process, risk and vulnerability assessment, and develop a resilience project portfolio. This initiative, funded through the N.C. State Legislature and the National Fish and Wildlife Foundation, will provide funding to local governments to help overcome barriers in coastal resilience and adaptation planning, boost local government capacity, and support a proactive, sustainable, and equitable approach to coastal resilience planning and project implementation.

Brief Description of Program:

The North Carolina Partnership to Increase Colorectal Cancer Screening (NCPICCS) is a federally funded program provided through the Centers for Disease Control and Prevention (CDC). NCPICCS is required to partner with health systems to increase colorectal cancer screening rates in clinics. NCPICCS is a collaboration between the American Cancer Society (ACS), the University of North Carolina-Chapel Hill Lineberger Comprehensive Cancer Center (UNC) and the NC Cancer Prevention and Control Branch to implement evidence-based interventions (EBIs) and improve data quality to improve colorectal cancer (CRC) screening rates in clinic locations.

The programs are also required to assess current cancer burdens and health disparities and to assess the existing initiatives, capacity, coalitions/partnerships, and infrastructure in the State. In order to accomplish these objectives, the program must reach out to local and regional partners working on cancer issues.

Primary Program Activities include the following:

- Participation in quality improvement learning collaborative and training on evidence-based interventions.
- Collaboration with health systems to increase colorectal cancer screening rates.
- Promotion of partnerships and collaboration with agencies, health facilities and educational institutions to actively work toward the goals and objectives of the Cancer Branch .

Agencies Funded: Community based organizations and federally qualified health centers.

Services Provided by Agencies: Implementation of evidence-based interventions to increase colorectal cancer screening rates.

Monitoring: Contractor must submit monthly expenditure reports for reimbursement. Contractors must adhere to stipulations specific within their contractual agreement. Federal mandates must be followed along with performance measures and scope of work agreed upon by both the entity and the State of North Carolina.

Brief Description of Program: A total amount of \$1,200,000 is allocated, \$600,000 in nonrecurring funds for the 2021-2022 fiscal year to be used to pay the contracted vendor for currently unfunded costs accrued by that vendor's continuation of the TBI pilot program during the 2019-2021 biennium. Additionally, the sum of \$300,000 in nonrecurring funds for the 2021-2022 fiscal year and \$300,000 in nonrecurring funds for the 2022-2023 fiscal year is available to the contracted vendor to continue the adult and pediatric traumatic brain injury pilot program, to be conducted at not less than five and not more than eight trauma hospitals licensed in this State. The purpose of the pilot program is to increase compliance with internationally approved evidence-based treatment guidelines for severe adult and pediatric traumatic brain injury in order to determine if that contributes to a reduction in patient mortality, improves patient level of recovery, and reduces long-term care costs.

Organizations Funded: ☒ Private ☐ Local Government ☐ Both

Contract exists between DMH/DD/SAS and Qmetis to carry out activities identified as part of this pilot project. The initial selection of this sub-recipient/provider and subsequent contracts are the result of an RFA process and contracted vendor continuation language in statute.
