Notes

- A The presence of "CL" in the supplement number indicates that the program is a cluster. See the compliance supplement for composition of the cluster.
- B The presence of "Y" on the matrix indicates this type of compliance requirement may apply to the Federal program. The auditor should use Part 3 of Section A and the compliance supplements in Section B in planning and performing the tests of compliance required by state agencies. This is in addition to the requirements, if any, in the Federal Compliance Supplement reproduced in Section A.

The presence of a "N" indicates the program normally does not have activity subject to this type of compliance requirement. Auditors should determine the compliance requirements applicable to the program. The auditor is responsible for reviewing applicable laws, regulations, contract and grant agreements, notifications from awarding agencies and any other applicable documentation in order to determine compliance requirements which could have a direct and material effect on major programs.
