N.C. DPI Confirmation Reports:

Confirmation of Funds Expended and/or Disbursed from the State Public School Fund and Federal Programs 2021-22 will be available at the [NC DPI School Business Division Annual Reports Application](#). The system provides an electronic view of Year-to-Date (YTD) financial reports in response to requests for confirmation from independent auditors.

The auditor should not consider the Supplement to be “safe harbor” for identifying audit procedures to apply in a particular engagement, but the auditor should be prepared to justify departures from the suggested procedures. The auditor can consider the supplement a “safe harbor” for identification of compliance requirements to be tested if the auditor performs reasonable procedures to ensure that the requirements in the Supplement are current.

The grantor agency may elect to review audit working papers to determine that audit tests are adequate.

Auditors may request documentation of monitoring visits by the State Agencies.

This compliance supplement must be used in conjunction with the OMB 2022 Compliance Supplement which will be issued in the summer. This includes “Part 3 - Compliance Requirements,” for the types that apply, “Part 6 - Internal Control,” and “Part 4 - Agency Program” requirements if the Agency issued guidance for a specific program. The OMB Compliance Supplement is Section A of the State Compliance Supplement.

I. PROGRAM OBJECTIVES

The purpose of the Title V State Sexual Risk Avoidance Education (SRAE) Grant Program is to implement education exclusively on sexual risk avoidance that teaches students to voluntarily refrain from sexual activity and other risky behaviors. The program targets youth in grades 5 and 6 in high-needs districts. Programs implemented under this grant must provide the following: 1) medically accurate and age appropriate content; 2) implement

sexual risk avoidance curricula/interventions and/or strategies that are evidence based or evidence-informed; 3) include Positive Youth Development (PYD); and 4) link students to services with local community partners and other agencies that support their health, safety, and well-being.

II. PROGRAM PROCEDURES

DPI allocates funds for up to 30 of the 116 local education agencies, identified as “Priority LEAs”, to implement the legislative priorities of the funding. Priority is determined based on high rates of 1) teen pregnancy, 2) teen birth, 3) children aged 0-17 in foster care, 4) free and reduced lunch eligibility, and 5) other academic risk factors.

III. COMPLIANCE REQUIREMENTS

Noted below in the following matrix are the types of compliance requirements that are applicable to the federal program. These Types are determined by the federal agency, noted as “Y,” on the “Matrix of Compliance Requirements” located in Part 2 of the OMB 2022 Compliance Supplement; however, the State Agency may have added the Type and this is noted by “Y.” If the State determines that the federal requirement does not apply at the local level or if the State modifies the federal requirements, this is noted in the supplement under the type of compliance requirement. If the federal and/or State agencies have determined that the type is not applicable, it is noted by “N.”

If the Matrix indicates “Y,” the auditor must determine if a particular type of compliance requirement has a direct and material effect on the federal program for the auditee. For each such compliance requirement subject to the audit, the auditor must use the OMB 2022 Compliance Supplement, Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and Part 4 (which includes any program-specific requirements) to perform the audit.

If there is no program listed on the “Matrix” in Part 2 or Part 4, the State has determined the Type that is applicable. If a Type is determined direct and material, the auditor should refer to the requirements found in Part 3 and listed in this supplement.

A. Activities Allowed or Unallowed

Compliance Requirement – Funds from this grant must be used to develop a SRAE program that must address the following topics:

- (a) The holistic individual and societal benefits associated with personal responsibility, self-regulation, goal setting, healthy decision making, and focus on the future.
- (b) The advantage of refraining from non-marital sexual activity in order to improve the future prospects, and physical and emotional health of youth.
- (c) The increased likelihood of avoiding poverty when youth attain self-sufficiency and emotional maturity before engaging in sexual activity.
- (d) The foundational components of healthy relationships and their impact on the formation of healthy marriages and safe and stable families.
- (e) How other youth risk behaviors, such as drug and alcohol usage, increase the risk for teen sex.
- (f) How to resist and avoid, and receive help regarding sexual coercion and dating violence, recognizing that even with consent teen sex remains a youth risk behavior.
