Address Confirmation Letters To:

SFY 2023 audit confirmation reports for payments made to Counties, Local Management Entities (LMEs), Managed Care Organizations (MCOs), Boards of Education, Councils of Government, District Health Departments and DHHS Grant Subrecipients will be available by mid-October at the following web address: <https://www.ncdhhs.gov/about/administrative-offices/office-controller/audit-confirmation-reports>. At this site, click on the link entitled “Audit Confirmation Reports (State Fiscal Year 2022-2023)”. Additionally, audit confirmation reports for Nongovernmental entities receiving financial assistance from DHHS are found at the same website except “[Non-Governmental Audit Confirmation Reports \(State Fiscal Years 2021-2023\)](#)”.

The auditor should not consider the Supplement to be “safe harbor” for identifying audit procedures to apply in a particular engagement, but the auditor should be prepared to justify departures from the suggested procedures. The auditor can consider the supplement a “safe harbor” for identification of compliance requirements to be tested if the auditor performs reasonable procedures to ensure that the requirements in the Supplement are current.

The grantor agency may elect to review audit working papers to determine that audit tests are adequate.

Auditors may request documentation of monitoring visits by the State Agencies.

This compliance supplement must be used in conjunction with the OMB 2023 Compliance Supplement which will be issued in the summer. This includes "Part 3 - Compliance Requirements," for the types that apply, "Part 6 - Internal Control," and "Part 4 - Agency Program" requirements if the Agency issued guidance for a specific program. The OMB Compliance Supplement is Section A of the State Compliance Supplement.

I. PROGRAM OBJECTIVES

- Positive Parenting Program ([Triple P - North Carolina](#)) is an internationally acclaimed multi-tiered system of evidence-based parenting interventions (education and support for parents and caregivers of children and adolescents) that has the following overarching goals:
- To promote the independence and health of families through the enhancement of parents' knowledge, skills, confidence, and self-sufficiency;
- To promote the development of non-violent, protective, and nurturing environments for children;
- To promote the development, growth, health, and social competence of young children; and
- To reduce the incidence of child maltreatment and behavioral/emotional problems in childhood and adolescence.

II. PROGRAM PROCEDURES

The Family Strengthening Initiative: Triple P is administered by the North Carolina Department of Health and Human Services—Division of Child & Family Well-Being, Women's and Children's Health Section, Children and Youth Branch.

All local health departments/health districts are eligible to apply for funding. Funds were distributed to selected local health departments through a Request for Application process. To be eligible for funding, the local health department must demonstrate a capacity to successfully implement evidence-based parenting initiatives. The project cycle is three years, pending continued funding availability.

The program is managed and supported through the Child & Family Wellness Unit in the Whole Child Health Section, Division of Child & Family Well-Being. Additional technical assistance is provided by Triple P America, Inc. through subcontracts with the participating local health departments.

Funds for this program are from a combination of Maternal and Child Health Block Grant funds and matching State funds. The proportion is four federal dollars and three State dollars for every seven dollars awarded and expended. The subrecipient has no requirement to account separately for federal and State dollars in its budget and expenditures.

The Contractor shall:

- A. Serve as the local implementing agency (LIA) to implement Triple P in the service area designated by the map in Attachment A and shall implement Triple P for all children from birth to 17 years of age within that service area, with primary support going to practitioners previously trained to assure that the program is being implemented with model fidelity.
- B. Subcontract any Triple P services only after having received prior approval from the DPH Triple P Coordinator. If subcontracting any portion of the work, the Local Health Department shall remain ultimately responsible for the deliverables in the Agreement Addendum.

- C. Assure that all Triple P Coordinators are trained in one Triple P intervention to serve as a knowledge base in supporting local trained practitioners.
- D. Create and maintain a LIA Leadership Team. The Leadership Team is comprised of the local implementing agency's Triple P coordinators and their supervisor or supervisors. The purpose of the Team is to provide day-to-day leadership in the implementation of Triple P across the service area.
- E. Create and maintain a Leadership Coalition. Members of this Coalition shall include representatives across the service area from local service agencies such as public health, social services, Smart Start partnerships, juvenile justice, mental health and the LIA Leadership Team. The purpose of the Coalition is to provide overall direction for the implementation of Triple P across the service area.
- F. Develop a revised Annual Implementation Plan for the service area, in conjunction with the service area's Leadership Coalition, and submit it by August 30th during the annual year, unless otherwise stated, to the DCFW Triple P Coordinator for review and approval. This Annual Implementation Plan shall demonstrate that Triple P will prioritize efforts in the counties shown in Attachment B and reach out to the other counties in the expanded coverage area as capacity and resources allow. It should be developed using the template provided by Triple P America with guidance from the DCFW Triple P Coordinator and the Triple P Support System (Triple P America, Impact Center, and PCANC), and must include:
 - 1. The following priorities related to serving the expanded coverage area (also known as the service area):
 - a. Be the primary contact for parents reaching out about available Triple P services and Triple P Online.
 - b. Be the primary contact for practitioners reaching out about being trained to deliver Triple P.
 - c. Identify and support the practitioners who have been previously trained and their service agencies, including providing data collection, coaching, peer-to-peer support, and refresher courses as needed to keep the practitioners engaged in delivering Triple P.
 - d. Recruit and arrange for training for new practitioners and/or currently trained practitioners in new Triple P interventions as funds will allow.
 - 2. A training schedule for practitioners to access the various levels of Triple P to be implemented in the service area.
 - 3. A plan for peer-to-peer coaching sessions for trained practitioners.
 - 4. A plan for data collection across the service area using the NC Triple P Data Collection and Reporting System or ASRA (Automatic Scoring and Reporting Application).
 - 5. A community outreach plan that includes media strategies for both caregivers (families) and practitioners (those providing services to families) using outreach seminars and/or Stay Positive Campaign materials.
 - 6. An annualized budget.

7. A practitioner/child-serving agency support plan, including the use of parent support materials, refresher and attrition training, PASS, Triple P integration into the child-serving agency, and practitioner service delivery plan. (PASS is Peer Assisted Supervision and Support, a professional development and peer support model.)
 8. Job descriptions and work plans for key staff (LIA Leadership Team) if any have changed from the past year's Annual Implementation Plan.
 9. Plans for local support of Triple P Online, including but not limited to the promotion of Triple P Online, the distribution of Triple P Online codes at the county level (not using the state automated distribution system developed by Triple P International), and/or the consultative support for parents engaged in Triple P Online.
- G. By September 30th of the fiscal/annual year, have the LIA Leadership Team share the approved Annual Implementation Plan with the Leadership Coalition.
- H. Adhere to standards and model elements set by Triple P America as described in its Triple P Implementation Manual, to ensure that the project is implemented with model fidelity.
- I. Collect and provide to the Division of Child & Family Well-Being (DCFV) all required data to document delivery of services and outcomes as specified in the NC Data Collection and Reporting System or ASRA and the NC Triple P Evaluation Plan. Local monthly activity data for local Triple P coordinator data shall be submitted to DPH via the NC Triple P Data Collection and Reporting System by the 10th of the following month. Practitioner and Parent Outcome quarterly data shall be submitted to DPH via the NC Triple P Data Collection and Reporting System or ASRA as described in Section IV. Paragraph B.1 below.
- J. Maintain the following Triple P infrastructure to support the region:
1. Maintain a minimum of 3.0 FTE positions as Triple P Coordinators to support the work in the designated service area. The three positions shall cover the following responsibilities: local coordination, practitioner support and coaching, outreach to practitioners and parents, marketing, training coordination, and data collection and reporting.
 - a. One full-time position will serve as the local team lead coordinator and will provide primary leadership for the Triple P project across the service area.
 - b. All three positions will participate in quarterly North Carolina Triple P State Learning Collaboratives and work closely with the DCFV Triple P Coordinator.
 - c. All positions will work in close harmony with the Triple P Support System (The Impact Center at FPG at UNC-Chapel Hill, Prevent Child Abuse North Carolina, and Triple P America). No more than one position may be trained in a Triple P Seminar Series to be used exclusively as an outreach tool to practitioners and parents to further engage them in the Triple P training or interventions, respectively. Positions that were filled as of June 1, 2018 shall remain grandfathered in, however, as positions become vacant and opportunities present themselves during the term of this Agreement Addendum, the program shall move to hire full-time positions to support the Triple P, rather than splitting an FTE among multiple staff positions.
 - d. In addition, all three positions should participate on other local community advisory boards to assure integration of Triple P into the system of care for the service area.

2. Maintain a Triple P Leadership Coalition that includes representatives from the other partner counties in the service region that includes, but not limited to, local health departments, social service agencies, juvenile justice, and local Smart Start Partnerships. The Triple P Leadership Coalition will advocate for the implementation or continuation of Triple P in the county or counties in the service area and support strategies for sustainability. They will also support the LIA Leadership Team. The Leadership Coalition will meet at least quarterly.
3. Maintain a LIA Leadership Team which will develop, maintain, and update, as needed, Memoranda of Agreements with local child serving agencies and practitioners to engage them in participation in Triple P provider training courses (inclusive of pre-accreditation, accreditation, and workshops), delivery of Triple P, and support (peer coaching and data reporting) for the local Triple P efforts.
4. All Triple P Coordinators shall participate in the North Carolina Triple P State Learning Collaborative that will:
 - a. Share best practices.
 - b. Provide peer-to-peer support for local Triple P coordinators.
 - c. Monitor data collection and develop quality improvement strategies that can be replicated in local Triple P projects.
 - d. Share social marketing strategies for replication in local Triple P projects.
 - e. Establish a network of "North Carolina Open Enrollment" training sessions that local Triple P projects can access to train practitioners.
 - f. Participate in professional development opportunities.
 - g. Participate in strategic planning activities to assure that resources are used effectively across all local implementing agencies.
 - h. Participate in coordinating resources such that Triple P is supported effectively across the state.
5. Coordinate with the Triple P Online State Coordinator to provide local support for families in the service area who are accessing Triple P via the online modules.
6. Notify the DCFW Triple P Coordinator within five working days of a vacancy and provide a copy of a recruitment plan to fill the vacancy, and within five days of filling the position, provide contact information for the new hire.
7. Complete an annual update of the Practitioner Roundup data by May 31, 2021.
8. Provide motivational support to parents engaged in Triple P Online (Standard and Teen) in coordination with the State Triple P Online Consultant.

III. COMPLIANCE REQUIREMENTS

Below on the matrix are the types of compliance requirements are applicable to the federal program, noted as “Y,” as determined by the federal granting agency if the federal program is listed in Part 2 of the OMB 2023 Compliance Supplement. A State agency may have added a Type. If the program is not listed in Part 2, the State Agency has determined the applicable Types. If a Type, applicable by OMB, does not apply at the local level or if the State has modified the federal requirements at the local level, this should be explained in the supplement under the Type. A Type that is not applicable at the local level is noted by “N.”

If a particular Type is noted as “Y,” the auditor must determine if the Type has a direct and material effect on the federal program for the auditee. For each Type of compliance requirement, the auditor must use the OMB 2023 Compliance Supplement, Part 3 (which includes generic details about each compliance requirement other than Special Tests and Provisions) and Part 4 (which includes any program-specific requirements) to perform the audit.

A	B	C	E	F	G	H	I	J	L	M	N
Activities Allowed or Unallowed	Allowable Costs/Cost Principles	Cash Management	Eligibility	Equipment/ Real Property Management	Matching, Level of Effort, Earmarking	Period Of Performance	Procurement Suspension & Debarment	Program Income	Reporting	Subrecipient Monitoring	Special Tests and Provisions
Y	Y	Y	Y	Y	Y	Y	Y	N	Y	Y	Y

A. Activities Allowed or Unallowed

Allowed

Funds may only be used to Triple P (Positive Parenting Program).

Funds will be awarded for the incremental costs that are associated with the implementation of the identified evidence-based programs. Incremental costs are defined as costs that are new to the organization as a result of this project. Funds are intended to be used for:

- Personnel cost for the preparation, facilitation, and follow-up required for the delivery of the selected program model;
- Cost of training and technical assistance from program developers or their assignees, including travel expense;
- Cost of technical assistance and coaching from program developers or designated North Carolina providers;
- Direct program expense including but not limited to materials, client transportation, childcare, required equipment, and required or developer recommended materials; and
- Community outreach to publicize the program and to identify and recruit program participants.

Note: *Travel cost should be computed at rates up to the current State regulations.*

In recognition of the critical importance of maintaining program fidelity, the Division of Child & Family Well-Being requires local health departments to commit to the highest level of staff training available. However, only those costs associated with the specific training and technical assistance recommended and provided by program developers, their assignees, or designated North Carolina providers will be permitted as allowable expenditures.

Unallowed

Funds may not be used to supplant existing family strengthening programs.

B. Allowable Costs/Cost Principles

All grantees that expend State funds (including federal funds passed through the N. C. Department of Health and Human Services) are required to comply with the cost principles described in the N. C. Administrative Code at 09 NCAC 03M .0201.

C. Cash Management

Compliance Requirements – When entities are funded on a reimbursement basis, program costs must be paid for by entity funds before reimbursement is requested from a State agency. When funds are advanced, recipients may be required to follow specific procedures.

Local Governments and Public Authorities

All local governments and public authorities are required to follow cash procedures for State funds outlined in the State's Budget and Fiscal Control Act (General Statute 159-34) and rules, policies, and procedures established by the Local Government Commission. Additionally, the State-awarding agency may specify their own requirements for the management of State funds and these requirements can be found in Part 10 of this Compliance Section.

Nonprofit Organizations

The specific requirements for the cash management of State funds will be specified by the State-awarding agency. The auditor will find the requirements in the contract and grant agreements, administrative manuals published by the awarding State agency and also cash management requirements can be found in the program specific requirements in Part 10 of this Section.

For any program for which an awarding State agency has established rules, policies and procedures for cash management, recipients should also establish similar procedures for subrecipients.

Audit Objectives – Determine whether:

1. The recipient/subrecipient followed procedures established by the applicable laws, regulations, statutes, and agency requirements.
2. The pass-through entity implemented procedures to assure that subrecipients conformed substantially to the same requirements that applied to the pass-through entity.

Suggested Audit Procedures

1. Select a sample of advances of State funds and compare to the dates the funds were disbursed and/or when the checks were presented to the banks for payment. Using these data, verify that:

- a. The timing of disbursements was in compliance with any requirements of the awarding agency or any applicable laws, regulations, or statutes.
 - b. If applicable, procedures were established to minimize the time elapsing between drawdown and disbursement of State funds.
2. Where applicable, select a sample of reimbursement requests and trace to supporting documentation showing that the costs for which reimbursement was requested were paid prior to the date reimbursement request.
3. Where applicable, review records to determine if interest was earned on advances. If so, review evidence to ascertain whether it was treated in accordance with the applicable laws, regulations, policies, and procedures and agency requirements.

E. Eligibility

The NC Division of Child & Family Well-Being uses the NC Institute of Medicine's (IOM) New Directions prevention program classification system to differentiate interventions according to the level of risk associated with the respective population served. The New Directions prevention categories are as follows:

- **Universal** interventions – are applied to general population with the goal of preventing child maltreatment from ever occurring. Universal strategies are available to everyone, rather than targeting populations based on risk factors or specific characteristics.
- **Selective** interventions – target activities to a group with specific risk factors with the goal of preventing child maltreatment from occurring in that group. Programs may target services to individuals, families, or communities based on risk factors such as children's special health needs, parental age, poverty, substance abuse, domestic violence, or maternal depression.
- **Indicated** interventions – target activities to a group that has experienced abuse or neglect with the goal of preventing child maltreatment from reoccurring in that group. An example includes parent training for parents who have been substantiated for abuse or neglect by a local department of social services.

Only programs that focus on universal or selective interventions are eligible for funding.

Programs that focus on indicated interventions will not be considered for funding.

Audit Objectives – Not applicable.

Suggested Audit Procedures – Not Applicable.

F. Equipment and Real Property Management

The grantee has agreed to reimburse the State for any loss or damage to equipment furnished the grantee for use in connection with the performance of his contract as specified on page 5 of the contract document.

The grantee has also agreed to put into place equipment controls and safeguards for equipment costing in excess of \$500 as specified in the contract document.

Audit Objectives – Determine whether:

1. The grantee maintains proper records for equipment and adequately safeguards and maintains equipment.
2. Disposition or encumbrance of any equipment or real property acquired with State awards is in accordance with the requirements of the awarding agency.

Suggested Audit Procedures

1. Obtain entity's policies and procedures for equipment management and ascertain if they comply with the awarding agency's policies and procedures.
2. Select a sample of equipment transactions and test for compliance with the awarding agency's policies and procedures for management and disposition of equipment.

G. Matching

No testing at the local level

H. Period of Performance

Compliance Requirements – State awards may specify a time period during which the grantee may use the State funds. Where a funding period is specified, a grantee may charge to the award only costs resulting from obligations incurred during the funding period and any pre-award costs authorized by the State awarding agency. Also, if authorized by the State program, unobligated balances may be carried over and charged for obligations of the subsequent funding period. Obligations mean the amounts of orders placed, contracts and subgrants awarded, goods and services received, and similar transactions during a given period that will require payment by the grantee during the same or a future period.

Audit Objective – Determine whether State funds were obligated within the period of availability and obligations were liquidated within the required time period.

Suggested Audit Procedures

1. Review the award documents and regulations pertaining to the program and determine any award-specific requirements related to the period of availability and document the availability period.
2. Test a sample of transactions charged to the State award after the end of the period of availability and verify that the underlying obligations occurred within the period of availability and that the liquidation (payment) was made within the allowed time period.
3. Test a sample of transactions that were recorded during the period of availability and verify that the underlying obligations occurred within the period of availability.
4. Select a sample of adjustments to the State funds and verify that these adjustments were for transactions that occurred during the period of availability.

I. Procurement and Suspension and Debarment

Compliance Requirements

Procurement

All grantees that expend federal funds (received either directly from a federal agency or passed through the N. C. Department of Health and Human Services) are required to conform with federal agency codifications of the grants management common rule accessible on the Internet at <https://www.whitehouse.gov/omb/information-for-agencies/circulars/>

All grantees that expend State funds (including federal funds passed through the N. C. Department of Health and Human Services) are required to comply with the procurement standards described in the North Carolina General Statutes and the North Carolina Administrative Code, which are identified in the State of North Carolina Procurement Manual accessible on the Internet at http://www.pandc.nc.gov/documents/Procurement_Manual_5_8_2013_interactive.pdf.

Audit Objectives – Determine whether procurements were made in compliance with the provisions of the program requirements and any applicable laws, regulations, statutes or other provisions of the awarding State agency.

Suggested Audit Procedure

Test a sample of procurements to ascertain if the applicable laws and the awarding agency procedures were followed.

L. Reporting

Financial Reporting

Contractors are required to submit monthly expenditure and financial reports within 30 days after the end of the month that the services were provided.

Performance Reporting

The Local Health Department shall adhere to the following reporting requirement:

Submit data as required by the State and model developer (Triple P-America) that documents, at a minimum, the following:

- Process measures will include the number of clients served, number of education programs held and participants trained, the number of providers trained, the number of media events and other frequency data pertinent to the levels of Triple P implemented. In addition, pre- and post-testing of educational programs will be evaluated to assure successful training efforts.
- Positive impact on county level indicators such as a reduction to out-of-home placements numbers, a reduction in hospitalizations/ER visits for child maltreatment injuries, and fewer substantiated child abuse cases. Specific outcomes must be represented in the strategic plan to be defined during the six month planning phase.
- Clinical outcomes of the families served.

Audit Objective – Determine whether required reports include all activity of the reporting period, are supported by applicable accounting or performance records, and are fairly presented in accordance with program requirements.

Suggested Audit Procedures

1. Perform monthly review of submitted reports to ascertain whether they are properly formatted and completed.
2. Review amounts requested and compare with previous months for outliers or unreasonable expenditures.
3. Compare submitted workload with established objectives for the current fiscal year to track compliance with yearly objectives.

M. Subrecipient Monitoring

The contractor shall not subcontract any of the work contemplated under this contract without obtaining prior to written approval from the Division. Any approved subcontract shall be subject to all conditions of this contract. Only the subcontractors specified in the contractor's application are to be considered approved upon award of the contract. The contractor shall be responsible for the performance of any subcontractor.

N. Special Tests and Provisions

Consolidated Agreement System

The DHHS Division of Child & Family Well-Being is made up of six major sections, Chronic Disease & Injury, Environmental Health, Epidemiology, Women's and Children's Health, Oral Health, and Administrative, Local, and Community Support. The Division utilizes a single written agreement to manage all funds, that is, State, federal, or private grant funds, that the Division allocates to local health departments across the State. This document, as amended, is called the Consolidated Agreement.

The Agreements sets forth the more general requirements of the funding relationship between the state and local public health agencies. The respective requirements are detailed under the headings: Responsibilities of the Department (Local Public Health Unit); Funding Stipulations; Fiscal Control; Responsibilities of the State; and Compliance. More specific information related to program activity is set out in a document called the Agreement Addenda which detail outcome objectives (which may or may not be negotiable at the beginning of each fiscal year) that each health department must achieve in exchange for the funding. A third part of the system is the Budgetary Authorization which is sent annually from each of the Sections or Branches of the Division to all health departments being allocated funds from specific sources, i.e., State appropriations or other federal grant funds for specific activities. This Estimate indicates the amount of the allocated funds and their respective sources. Each health department should be able to provide an auditor with a copy of the Consolidated Agreement for the particular year being audited, as well as copies of the Budgetary Authorization and any revisions, Agreement Addenda, expenditure reports and any activity reports for each source of money received. If the health department cannot provide these documents, they may contact the State Division of Child & Family Well-Being Budget Office for assistance.

Suggested Audit Procedures – The auditor should review Section B. FUNDING STIPULATIONS of the Consolidated Agreement before beginning an audit. The fourteen items of this Section describe much of the detailed information the auditor may be seeking during a review of these programs.

Conflicts of Interest and Certification Regarding No Overdue Tax Debts

All non-State entities (except those entities subject to the audit and other reporting requirements of the Local Government Commission) that receive, use or expend State funds (including federal funds passed through the N. C. Department of Health and Human Services) are subject to the financial reporting requirements of G. S. 143C-6-23 for fiscal years beginning on or after July 1, 2007. These requirements include the submission of a Conflict of Interest Policy (see G. S. 143C-6-23(b)) and a written statement (if applicable) completed by the grantee's board of directors or other governing body that the entity does not have any overdue tax debts as defined by G. S. 105-243.1 at the federal, State or local level (see G. S. 143C-6-23(c)). All non-State entities that provide State funding to a non-State entity (except any non-State entity subject to the audit and other reporting requirements of the Local Government Commission) must hold the subgrantee accountable for the legal and appropriate expenditure of those State grant funds.
