The auditor should not consider the Supplement to be “safe harbor” for identifying audit procedures to apply in a particular engagement, but the auditor should be prepared to justify departures from the suggested procedures. The auditor can consider the supplement a “safe harbor” for identification of compliance requirements to be tested if the auditor performs reasonable procedures to ensure that the requirements in the Supplement are current.

The grantor agency may elect to review audit working papers to determine that audit tests are adequate.

Auditors may request documentation of monitoring visits by the State Agencies.

DOWNTOWN REVITALIZATION AND ECONOMIC DEVELOPMENT

I. PROGRAM OBJECTIVES

The purpose of the program is to award grants to certain legislatively directed local governments for the purpose established in the authorizing legislation.

II. PROGRAM PROCEDURES

The Rural Economic Development Division administers grants.

Proposals are accepted as submitted by legislatively directed local governments. Unless specifically directed in the legislation, local governments have complete discretion regarding the use of funds, except for the following specifically prohibited uses: salaries or of local government employees, food/drink, and entertainment.

Progress reports are due biannually on January and July 15 for each year that the grant is open. A final report is due once all grant funds received by the local government have been expended. Local governments should submit copies of all invoices paid with grant funds along with the completed final report form.
