I. PROGRAM OBJECTIVES

The objective of the Children’s Trust Fund is to provide community-based educational and service programs designed to prevent the occurrence of child abuse and neglect. Child abuse and neglect prevention programs are defined to be those programs and services which impact juveniles and families before any substantiated incident of abuse or neglect has occurred. These programs may include, but are not limited to:

- 1) Community-based educational and family support programs on prenatal care, parent-child bonding, parenting skills, child development, positive discipline, basic childcare, care of children with special needs, and coping with family stress; and
- 2) Community-based programs related to crisis and respite care, case management, referrals, aid to meet family’s basic needs, mental health services, developmental assessments, and support groups for parents and their children experiencing stress within the family unit.

CHILDREN'S TRUST FUND

- 3) Community response programs that provide outreach, case management, support, and services to individuals and families identified as being at-risk of compromised health and safety by promoting protective factors that strengthen families.

II. PROGRAM PROCEDURES

The North Carolina Children's Trust Fund established through N.C.G.S. 7B-1301-1302, is administered by the North Carolina Department of Health and Human Services (DHHS), Division of Social Services (DSS).

Grants are awarded by DSS through a competitive Request for Applications (RFA), an assessment of the ability and capacity of the organization to implement community-based programs, and availability of funding. The RFA will be made accessible to the public through announcement on the DSS public notice site. The RFA will contain a listing of approved services, application process, and required application forms and contract certifications.

Any tribal government, community-based, public or private nonprofit, tax-exempt organization (including faith-based), school system, local government agency that is duly incorporated and registered under North Carolina Statutes, including, but not limited to County Departments of Social Services, is eligible to apply.

An independent review team is comprised to review and score the applications. The recommendations of this team are forwarded to the Community Prevention Program Manager, Safety and Prevention Section Chief, and Deputy Director for Child Welfare Practice for approval. Once this process is completed, a formal award notification is sent to approved applicants. DSS enters into a contract agreement with each agency to provide allowable services. These funds require a 25% provider match.

Subrecipients are reimbursed following expenditure through submission of a monthly DSS-1571 Part III Administrative Costs Report to the NC DHHS Controller's Office. All State requirements are communicated to the subrecipients as part of the RFA and contracting process.

These funds may be used for an array of services including but not limited to: Community-based educational programs on prenatal care, prenatal bonding, child development, basic childcare, care of children with special needs, coping with family stress; and programs related to mental health, crisis and respite care, parenting aid and education, family resource center activities, concrete supports to meet families' basic needs, and support groups for parents and their children experiencing stress within the family unit.
