The auditor should not consider the Supplement to be “safe harbor” for identifying audit procedures to apply in a particular engagement, but the auditor should be prepared to justify departures from the suggested procedures. The auditor can consider the supplement a “safe harbor” for identification of compliance requirements to be tested if the auditor performs reasonable procedures to ensure that the requirements in the Supplement are current.

The grantor agency may elect to review audit working papers to determine that audit tests are adequate.

Auditors may request documentation of monitoring visits by the State Agencies.

I. PROGRAM OBJECTIVES

The Parks and Recreation Trust Fund (PARTF) was created by the N.C. General Assembly in July 1994 (General Statute 143B-135.56). The Parks and Recreation Authority (Authority), a nine-member board, allocates funds from PARTF to local government projects in the form of matching grants for land acquisition and development of facilities for public park and recreation purposes. Based on PARTF’s general statute, thirty percent is allocated for matching grants on a dollar-for-dollar basis to local governments.

II. PROGRAM PROCEDURES

The Division of Parks and Recreation administers the program on behalf of the N.C. Department of Natural and Cultural Resources (DNCR). The Parks and Recreation Authority has full discretion and responsibility over the allocation of PARTF to local governments. Only counties, incorporated municipalities and public authorities which are authorized to acquire land and develop facilities for public recreation purposes are eligible to apply and to receive PARTF funding.

The Authority and staff have developed an application as the vehicle for eligible local government applicants to apply for funding. The deadline for applications is on or before May 1st each year. Letter to eligible applicants announcing the annual funding cycle and schedule are sent in early October. In October, an application workshop is conducted across the state by staff to assist local governments in preparing of their applications.
A scoring system approved by the Authority is used to evaluate each application’s merit. The Authority also considers the geographic distribution of grants, the presence or absence of other funding sources, the population of applicant, the level of compliance with prior grant agreements, the amount of funds available and the amount of funds being requested.

Each application is reviewed and evaluated by staff for completeness and eligibility. Staff evaluates eligible applications based on the following criteria in the scoring system:

1) New public recreation facilities provided by the project;
2) The degree of local recreational planning for the project and how the specific elements in the project conform to the plan;
3) The acquisition or the conservation of unique natural, cultural, recreational or scenic resources;
4) The level of public involvement in developing and supporting the project;
5) The applicant’s commitment to operating and maintaining the project;
6) The suitability of the site for the proposed project development;

The Authority reviews the evaluation of each application and other relevant factors and selects applications for funding in August each year. Upon approval of an application by the Authority, a contract is executed between the local grant recipient and DNCR. The contract defines DNCR’s and the grant recipient’s responsibilities and obligations, the contract’s project period, project scope, and the amount of grant assistance. The grant recipient’s application and support documentation become a part of the contract.

The PARTF program operates within a set of program guidelines established under administrative rules as defined in DNCR’s Subchapter 12K 15A NCAC 12K .0101 – 0110. As such, auditors are directed to the above referenced administrative rules and the PARTF contract for specific directions on all aspects of compliance.

DNCR staff conducts periodic inspections during the contract period to assure and to monitor for the continued effectiveness of the financial and administrative management by the grant recipient.

Grant recipients initially pay in full for costs incurred during the project period, and upon submission of project billings with required support documentation to DNCR are reimbursed 50% of eligible costs according to the contract and the cost estimates submitted with the grant recipient’s application.
